

January 28, 2011

Hi Mike,

I just wanted to let you know how much the staff and students enjoyed the presentation on Monday. It was entertaining but also very relevant and meaningful to many. I have been in several classes and have asked what the students thought. It has been 100% thumbs up in every class. I have heard that the R5 Facebook page was being used by many of our students that night. The teachers also appeared to like the assembly. Our principal said it was a very valuable assembly and the timing was perfect for our school as we get ready to take ITBS test.

Personally, I have spoken to several students about issues in my office. I ask them if they saw the assembly and of course they say yes. I then bring up the analogy of reaching for the top and they are taken back to the assembly and appear to be more motivated to make the positive change.

David Stanfield (our media specialist) has ordered 20 books and we will likely be looking at ordering more in the future. We appreciate the positive impact your program has on young people. Keep up the good work.

Thanks, Mike.
